With 5 bedrooms, 3.5 bathrooms, and a detached heated garage, this beautifully maintained property offers the perfect blend of space and flexibility for families of all sizes. Step through the front door and you'll be greeted by a bright and inviting main level. Freshly painted in 2025 and immaculately kept throughout. The living room has carpet flooring and a large picture window, creating a cozy atmosphere to relax and unwind. The adjoining dining room leads directly to a multi-tiered deck and low-maintenance backyard, making it a fantastic spot for hosting summer barbecues or enjoying peaceful evenings outdoors. The kitchen is designed with both style and practicality in mind, featuring rich espresso cabinetry, tile flooring, and stainless steel appliances (including a newer fridge replaced in 2023). Nearby, the main floor laundry room adds convenience to your daily routine and includes a newer washer and dryer (replaced in 2023), lastly, there's a well-appointed 2-piece powder room for guests. Upstairs, the home continues to impress with three generously sized bedrooms and two full bathrooms, including a spacious primary suite complete with a walk-in closet and a private 3-piece ensuite—your private retreat at the end of the day. Downstairs, the fully developed basement offers incredible versatility. With its separate entrance, second laundry area, wet bar/kitchenette, and a full 4-piece bathroom, it's a perfect space for extended family, a live-in nanny, or mortgage helper setup. The two large bedrooms—one featuring a walk-in closet—make this lower level feel like its own private suite, while still offering seamless integration with the rest of the home. Outside, this home has seen many updates that

enhance both curb appeal and efficiency. In 2016, the shingles, siding, insulation, front windows, front door, and rear deck were all replaced—meaning peace of mind for years to come. And for those who need a functional workspace, the 24'1" x 24'1" detached garage is heated with radiant heat, making it ideal for year-round projects, storage, a space to hang out, or keeping your vehicles cozy in winter. You'll also enjoy the added benefits of hot water on demand and central air conditioning for seasonal comfort.
