Comfortable and practical living come together in this thoughtfully laid-out home, where warm tones and classic finishes create a welcoming atmosphere. The dedicated kitchen, outfitted with custom maple cabinetry, stainless steel appliances, and a walk-in pantry, opens to the adjacent dining area with a patio door inviting you outdoors. Rich maple hardwood flows through the main floor, accented by a tri-sided fireplace that defines the living and dining rooms. Newly installed wide plank luxury vinyl adds continuity and durability on the upper level, where a light-filled bonus room offers versatile space for family living. The serene primary suite includes a walk-in closet and spa-inspired ensuite with jetted tub and custom rain shower, while two additional bedrooms and a four-piece bath complete the upper level. A separate-entrance to the one-bedroom suite (final permits in progress to make it legal) with kitchen, living area, 4 piece bathroom and large bedroom, is built on an ICF foundation with approved engineered plans in place. Central A/C, 2 furnaces, a heated finished double garage, and a fully fenced, west facing backyard and just steps away from gorgeous trails make this move-in ready home the perfect choice.
